CASE STUDY:

Nerang Early Learning Centre – 12

Riverview Rd, Nerang, QLD 31.32KW Grid

Tied Solar

Expert Electrical was appointed by Pacific Group as the Solar Construction (EPC) contractor to deliver the 31.32KW grid connected solar PV system for the new Childcare development “Nerang Early Learning Centre” in Nerang, QLD”

This custom engineered solar power system has 132 x Jinko 270W Solar Panels and 2 x German made SMA Solar 15KW Inverters. It covers approx. 217 m2 of roof space. The owners of Nerang Early Learning Centre are now benefiting from reduced grid consumption and have the ongoing peace of mind that they are contributing to a lower carbon footprint whilst the children in their care develop in readiness for primary school.
